EXPERIENCE

Manager | **Cognizant**

06/2025 - Current

AI-Driven Marketing & Lead Operations

- Leveraged generative AI and intelligent automation to optimize lead management workflows, improving MQL-to-MSQL conversion efficiency
- Strengthened email performance through AI-driven personalization, automated nurture journeys, and audience segmentation, improving engagement across North America and EMEA accounts

Marketing Process & Lifecycle Optimization

- Designed scalable marketing operations models for lead tracking, campaign governance, and lifecycle measurement, improving reporting accuracy and operational efficiency
- Streamlined marketing-to-sales handoff processes through structured campaign workflows, improving collaboration, lead visibility, and execution consistency across teams
- Enabled data-driven business decisions by implementing lead lifecycle analytics, campaign performance reporting, and process optimization strategies aligned with growth objectives

Demand Generation & Email Marketing

- Spearheaded integrated demand generation campaigns across LinkedIn Ads, content syndication, and automated email marketing programs to drive enterprise pipeline growth
- Built and optimized always-on email nurture journeys for enterprise accounts, improving customer engagement, retention, and campaign consistency across global regions
- Managed multi-channel outreach initiatives that increased brand visibility, strengthened prospect engagement, and supported revenue generation objectives

Strategic Stakeholder Alignment

- Partnered with senior leadership, sales teams, and vertical account stakeholders to align marketing strategies with revenue objectives and pipeline growth priorities
- Established shared performance metrics and business reporting structures to improve cross-functional visibility, campaign accountability, and strategic decision-making

Key Achievements

- Orchestrated 50+ TOFU, MOFU, and BOFU campaigns across email marketing, LinkedIn Ads, and content syndication for enterprise accounts across North America and EMEA
- Built regional campaign dashboards to monitor MQL, Hand Raiser performance, funnel visibility, and campaign engagement metrics for leadership reporting
- Leveraged AI agents to improve MQL-to-MSQL conversion efficiency, streamline email development workflows, and enhance campaign execution efficiency

Manager | **Valueserve**

08/2021 - 06/2025

Marketing Solution Development and Proposal Creation

- Engineered marketing solutions and created comprehensive proposals
- Launched campaigns and developed targeted content to boost solution awareness and generate business opportunities
- Developed a PoV on B2B engagement and nurturing strategy, emphasizing lead nurturing and conversion into actionable opportunities [POV Link](#)

Marketing Strategy and Execution

- Created and implemented strategic marketing plans to drive growth, increase brand visibility, and enhance customer engagement
- Designed and executed industry-specific marketing initiatives across BFSI, Manufacturing, Retail, and Healthcare to enhance brand equity, build trust, and drive demand
- Planned and directed field marketing activities like conferences, webinars, seminars, and fireside chats to drive engagement and build the pipeline

Content Marketing and Value Proposition Development

- Constructed content marketing strategies aligned with global goals, creating quarterly and annual plans to drive engagement.
- Collaborated with cross-functional teams to create thought leadership, case studies, videos, and solution collateral
- Conducted research and analysis to craft tailored value propositions and contents for key industry accounts
- Orchestrated the launch of the Retail Cluster, managing narrative creation, website development, campaigns, and nurture email workflows

Integrated Campaign Management

- Lead the planning and execution of integrated marketing campaigns across channels like email, social media, LinkedIn, Demandbase, and Google Ads
- Ensured a consistent flow of qualified MQLs by collaborating with sales teams to drive effective MSQL conversion and pipeline growth
- Tracked, analyzed, and optimized campaign performance using data-driven insights for continuous improvement

Stakeholder and Cross-Functional Collaboration

- Built strong stakeholder relationships, including C-level, by aligning marketing efforts with business objectives, ensuring effective communication, and fostering collaboration
- Collaborated with sales teams to develop account-based marketing strategies that enhance brand credibility and drive pipeline growth

People Management

- Mentored a team of 4 professionals by providing execution support, and continuous development within enterprise marketing operations
- Managed workflow governance, task prioritizations, and execution tracking to ensure scalable operations and consistent adherence to project timelines and SLAs

Key Achievements

- Implemented 100+ integrated campaigns across Email, LinkedIn, Demandbase, and bespoke events for BFSI, Retail, and Manufacturing sectors
- Architected 4+ thought leadership assets across BFSI, Manufacturing, and Retail to strengthen enterprise engagement and brand positioning
- Organized 5+ workshops and 10+ fireside chats & roundtable discussions, contributing to \$15M+ MSQL pipeline in FY25
- Headed the Retail Cluster launch through narrative development, campaigns, website creation, and email workflows

Marketing Analyst | Tata Consulting Services

04/2019 - 07/2021

Business & Sales Enablement

- Coordinated with Business Relationship Managers, Client Partners, and cross-functional teams to create sales pipelines
- Drove cross-selling and up-selling initiatives through strategic account research, market analysis, and product positioning for BFSI accounts across the US and Latin America.

Content Creation and Campaign Execution

- Architected marketing materials, including case studies, PoVs, brochures, and flyers
- Strategised, devised, and executed email campaigns to drive targeted, segmented account-based marketing and product campaigns

Key Achievement

- Led business offering setup by creating value propositions, case studies, PoVs, brochures, flyers, and sales enablement collateral for enterprise accounts

Team Lead/ UI Developer | Tata Consulting Services

09/2014 - 05/2018

Business & Sales Enablement

- Supervised a team of 8 professionals, defining KPIs to track progress and identify critical areas in team performance and application development
- Implemented CRs and UI enhancements in BAU projects for BFSI and Telecom clients
